**We help small town kids launch BIG life dreams!**

Hello Parents,

We are so excited to engage your 6-8 grade student in the Fernwaters program. We are fortunate to be able to provide every student with a computer device, math tools, and up-to-date curriculum in science, math, ELA, and social studies. The school will provide most learning supplies at no cost to the parent. If you could supply your student with the items below, we will get the school year off to a great start! Thanks for choosing Fernwaters!

## 6-8 SCHOOL SUPPLIES

- ☐ Four 3-ring binders with a 1 to 1 1/2-inch spine. *Binders with less than 11-inch depth fit best in our book bins.*
- ☐ 3-ring pencil pouch
- ☐ One color highlighter
- ☐ Loose leaf, lined paper
- ☐ Pencils/erasers and blue or black ink pens
- ☐ Ruler, protractor, graphing paper to keep at home. *The school will provide these math tools at school.*

*\* Incoming 7th Grade students will need to present either evidence of current immunizations or an exemption form.*

As you may know, Fernwaters expects students to come to school with a snack and lunch. However, we do stock a pantry with lunch items for those days that get too busy. If you are able and would like to donate lunch items for the students, we seek single serving sizes of macaroni and cheese, cup-of-soup, and granola bars. Thanks!
